

Boray Bingo V1.0

A Bingo Announcer program for the Commodore 264 line of computers, bundled with printable bingo cards for kids (editable).

Contents

Bingo-eng.prg

English version of the program

Bingo-swe.prg

Swedish version of the program

lott1.odt and lott2.odt

Editable bingo cards. (The two cards can be played by two persons simultaneously.) Each bingo card contains four games which means you can play four times on the same paper. Fill it with small gifts for your kids. A full horizontal line = a win. The winnings (written in Swedish) says things like 1 Swedish crown, 5 Swedish crowns, 2 ginger bread cookies. You get the idea.

Lott1.pdf and lott2.pdf

The same but as pdf.

Instructions.pdf

This file.

Have fun!
